

HOW TO RELOCATE

The new Self-Relocation program puts you in control. Relocate your seats with ease and see all your options in front of you!

1

We will email you the moment your relocation window is officially open. Click the "Relocate Now" button to be taken directly into the relocation process

2

This first pop-up you see will include important information about relocating your seats for your 7-Show Package, payment, and relocating with a seatmate

HELPFUL TIPS FOR YOUR RELOCATION

Once you've confirmed your new seat location at checkout, your relocation is complete and your relocation window is closed! Seat locations are final and additional changes cannot be made online. If you choose not to relocate, you'll keep your current seat locations.

Please note: This seat relocation only impacts your seats for the 7-Show Season Ticket Package. If you purchased WICKED tickets, they will not be impacted by this relocation.

PAYMENT: When moving or upgrading your seats to a higher price location or performance day, a balance may be owed.

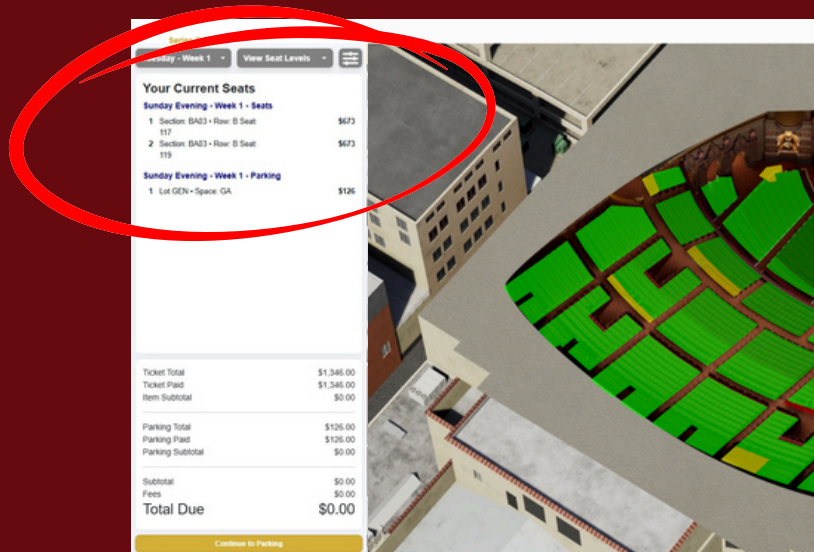

- Season Ticket Holders who Paid in Full: The price difference (if applicable) will be charged to the card used for your renewal in 3 to 5 business days.
- Season Ticket Holders with a Renewal Payment Plan: The price difference (if applicable) will be factored into your remaining scheduled payments.

RELOCATING WITH A SEATMATE WHO HAS A SEPARATE ACCOUNT?: If you are looking to relocate to new seats with a seatmate who has a separate account, we recommend relocating online at the same time and communicating with each other throughout the process to identify the best relocation options for your group.
